

LED PRESSURE ALARM VISUAL

- FLASHES IMMEDIATELY WHEN TYRE HAS LOST 0.3 BAR (4 PSI)
- SAVES FUEL, REDUCES TYRE WEAR AND YOUR CO2 FOOTPRINT
- WITH ANTI-THEFT KEY

FOR ALL PRESSURES BETWEEN 1 AND 12 BAR (10 TO 170 PSI)

TYRE PRESSURE MONITORING SOLUTION

ADVANTAGES

- ✓ Your tyre pressure checked 24/7, also when parked.
- ✓ Preventive measure to avoid road breakdowns or accidents.
- ✓ Fuel saving.
- ✓ Better mileage with same set of tyres.
- ✓ Saving time / money on tyre pressure control.
- ✓ Easy installation.
- ✓ Service free.
- ✓ Safer driving.
- ✓ Environment friendly, reduces your CO2 emission.
- ✓ Return on investment in less than 6 months.

CONSEQUENCES OF TYRE UNDER INFLATION IN FIGURES

Under Inflation increases tyre wear considerably.

20% under-inflation = 20% less mileage*

Fuel consumption is significantly higher when driving with under inflated tyres.

20% under inflated tyres = + 1.7 % fuel consumption*

Under inflated tyres increase risks of accident and breakdown

A tyre breakdown can cost between 50,000 and 5,00,000 rupees.
